

ETRAGE LLC Announces Plot Service for Windchill Integration with Inventor and NX

Waltham, MA – June 2, 2010 – ETRAGE LLC, The Engineering Automation Company, today announced that it has added Inventor and NX to Plot Service for Windchill (PSW) for the creation of viewable files and CAD Interoperability.

Inventor and NX drawings, parts and assemblies that are managed by Windchill can now be automatically processed by PSW for creation of PDF and other viewable file formats as well as translated to CAD formats using the TransMagic or Theorem Solutions interoperability software applications. PSW can now process models from Pro/ENGINEER, CATIA V5, SolidWorks, Inventor and NX.

PSW was developed to process Pro/ENGINEER models to the viewable formats of PDF, ProductView, JT, VRML, HPGL, IGES, ACIS, STEP, STL, Shrink-Wrap, DXF, TIFF, BMP, JPG and EPS formats that. Etrage has been expanding PSW to process many of the CAD applications that are managed by the Windchill Work Group Managers.

PSW has three operating modes.

- Automatic processing on changes of lifecycle and revision or at check-in
- Batch processing
- On Demand processing

For a demonstration of PSW, visit the Etrage booth, #501, at the PTC/USER World Event, in Orlando FL, June 6 to 9, www.ptcuser.org/2010/index.html or contact Ron Zabalski at 978.922.2012.

About ETRAGE LLC

ETRAGE LLC, based in Waltham, MA, is a software development company that focuses on products and services in engineering/design automation and integration, manufacturing automation and data integration. Etrage's services have been in the areas of automation, customization and integration of 3D solid modeling CAD and PDM systems. ETRAGE can be found on the web at www.etrage.com.

Windchill and Pro/ENGINEER are registered trademarks of Parametric Technology Corporation. CATIA V5 and SolidWorks are registered trademarks of Dassault Systemes. Inventor is a registered trademark of Autodesk. NX is a registered trademark of Siemens Software.
