

ETRAGE's Plot Service for Windchill now Creates PDFs from AutoCAD

Waltham, MA – August 16, 2010 – ETRAGE LLC, The Engineering Automation Company, today announced that it has added AutoCAD to Plot Service for Windchill (PSW) for the creation of viewable files such as PDF files.

AutoCAD drawings that are managed by Windchill can now be automatically processed by PSW for creation of PDF file formats.

PSW was initially developed to process Pro/ENGINEER models to the viewable formats of PDF, ProductView, JT, VRML, HPGL, IGES, ACIS, STEP, STL, Shrink-Wrap, DXF, TIFF, BMP, JPG and EPS formats. Etrage has been expanding PSW to process many of the CAD applications that are managed by the Windchill Work Group Managers such as Inventor, CATIA V5, SolidWorks NX and now AutoCAD.

PSW has three operating modes.

- Automatic processing on changes of lifecycle and revision or at check-in
- Batch processing
- On Demand processing

For a demonstration of PSW, contact Ron Zabilski at ron@etrage.com or 978.922.2012.

About ETRAGE LLC

ETRAGE LLC, based in Waltham, MA, is a software development company that focuses on products and services in engineering/design automation and integration, manufacturing automation and data integration. Etrage's services have been in the areas of automation, customization and integration of 3D solid modeling CAD and PDM systems. ETRAGE can be found on the web at www.etrage.com.

Windchill and Pro/ENGINEER are registered trademarks of Parametric Technology Corporation. CATIA V5 and SolidWorks are registered trademarks of Dassault Systemes. AutoCAD and Inventor is a registered trademark of Autodesk. NX is a registered trademark of Siemens Software.
